PATENT

AMENDMENTS TO THE CLAIMS

The listing of claims will replace without prejudice, all prior versions, and listings, of claims in the application.

Claim 1 (currently amended): A method of facilitating childhood learning comprising: providing fastening devices for use on apparel articles; modifying the shape of the fastening devices to give the fastening devices an appearance of characters to be portrayed in a story; teaching a child how to manipulate the fastening devices by relating the story in a selected media wherein the shape of each fastening device is modified to give the fastening device a personalized appearance by adding features of a human being, the features comprising at least one of eyes, ears, a nose, a mouth, arms or legs.

Claim 2 (cancelled):

Claim 3 (cancelled):

Claim 4 (previously presented): A method as claimed in claim 1, wherein the fastening devices include at least one of a zipper, a snap, a button, a buckle, a string and a lace.

Claim 5 (previously presented): A method as claimed in claim 4, wherein the characters include multiple characters developed using multiple zippers, multiple snaps, multiple buttons and multiple buckles and multiple strings or laces.

Claim 6 (previously presented): A method as claimed in claim 1 wherein the media for relating the story is at least one of a book, television or radio rendition, movie, video, cards.

Claim 7 (cancelled):

Claim 8 (previously presented): A method as claimed in claim 1 wherein each of the characters are named with a selected name to facilitate character identification and thereby promote learning.

Claim 9 (currently amended): A method comprising: providing a fastening device; modifying the shape of the fastening device to give the fastening device an appearance of a character to be portrayed in a story ; and relating the story in a selected media, in order to facilitate childhood
